The deadline for paying dues for the coming year, for both present members and new members, is Oct. 26. For new members wishing to join the auxiliary, it is pointed out the \$3 active membership requires 50 hours of service in the auxiliary during the year, while the \$10 sustaining member may or may not work actively in the auxiliary, as she chooses.

President Grace Maxson displayed at the meeting a certificate of good standing sent to the local (continued on page 8)

Carnival Planned At Local School Halloween Oct. 30

Blue Devils Tied Delray Last Week In Second Game

Foot ball reports are to the effect that Delray Beach Seahawks had things pretty much their own way last Friday night but were unable to more than tie the Pahokee Blue Devils by a 6 to 6 score. Last night the local aggregation went to Fort Lauderdale to play Nova high school in the local's third encounter of the present season.

Last Friday night Mike Sanders set up Pahokee's only touchdown with a 30-yard punt return and then caught runaway Tom Jones from behind late in the fourth quarter to preserve the 6 to 6 tie for the locals.

Pahokee only managed to cross the 50-yard line twice in the game, once when it scored and again later in the second period. The second drive across the mid-field stripe fell short on the Seacrest 46.

Seacrest managed to struggle to the Pahokee one yard line late in the fourth period, but lost the ball on downs.

In the statistics it was Seacrest throughout. The Seahawks rolled up 268 yards rushing to Pahokee's 74, and had nine more passing yards than the visitors.

\$431.40 Per Pupil Is Cost Education Palm Beach County

Palm Beach County's school board estimates it will require 11.42 mills of local funds to operate the schools during the next two years, 1966 through 1968, it is announced.

Authorization for six of these 11.42 mills will be subject to the November 2 school millage referendum. Most of the revenue raised by local county millage taxes is used to finance the instructional part of school budgets.

School tax referendums are held every two years, but county school budgets are adopted annually. The total nine mills levied to support this current 1965-66 school budget, involves the voters' authorization given at the 1963 referendum. This year's authorization will be for the 1966-67 and 1967-68 school years.

State law requires county school boards to estimate their budgets two years in advance. They then go to the voters and ask for their authority to raise money to meet the costs to operate the schools during the next two years.

Palm Beach County has frequently not used the full millage authority given its school board by the voters in these biennial referendums. School board chairman Louis B. Bills, for example, has pointed out that Palm Beach County schools have actually levied less taxes than they were authorized to do, during the past two years.

As stated, most of the money (Continued on page 8)

Construct House To Be Sold For Aid Baptist College

The Baptist College house is now under construction.

Proceeds from the sale of the house, being built in Hidden Key just north of North Palm Beach, will go to the Baptist College building-fund campaign. This was announced today by Gene Armstrong, president of Gene Armstrong Associates, Inc. and officials of the College campaign.

Ground-breaking ceremonies were held with Dr. Jess Moody, chairman of the college committee, Dr. Donald E. Warren, executive vice-chairman of the campaign, Armstrong and James Casto, vice president of Gene Armstrong Associates, Inc.

The home, Armstrong said, will be completed in a few months in the waterway community, 1½ miles north of North Palm Beach.

Dr. Moody said this will be a wonderful addition to the campaign to raise \$1,500,000 to build the college in Palm Beach Gardens. "I hope that other builders will follow Gene's lead and build similar 'Baptist College' houses."

Armstrong has been active in the college campaign, serving as North Palm Beach chairman.

The first announcement of the Baptist College house was made almost a year ago, in fact it was the first announced pledge, before the campaign actually got underway.

The builder and civic leader said "one of God's greatest blessings to our area will be the establishment of this new college. It will foster new growth in many fields of our life and business."

"There have been many things which have come to use in the past, but none so important as this. This college will add long life to the industries now here, and will bring new ones."

"We should do everything possible to help make this college a reality."

Upon completion, the home will be open to the public at a special grand opening to be announced at a later date.

Special Hours For Security Office

The social security district office in West Palm Beach will remain open from 4:30 P. M. to 8:30 P. M. each Friday evening for the next several months, for the added convenience of residents of the area. R. C. Gehrken, social security district manager, said today. These evening hours are in addition to the regular 8:30 a. m. to 4:30 p. m. schedule of office hours, Monday through Friday.

Gehrken pointed out that it is important for many people to get in touch with the district office to take advantage of the health insurance and other provisions of the 1965 amendments to the social security program. Although most people are able to visit the office during the day, many find it impossible to do so because of employment or home responsibilities.

The entire group of deacons and their wives will be honored at the third annual deacon's banquet on October 12. Ordination of the new deacons will be held in late October.

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones
you own now are better than ever*

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{1}{4}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{4}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $\frac{1}{4}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

\$431.40 Per Pupil—

(continued from page 1)
raised from millage taxes, is used for actual instructional needs of the schools. This is seen when the current school budget is studied.

This year, the state is supplying \$11.6 million for Palm Beach County schools, while county taxes are supplying approximately \$23.3 million — mostly from property taxes.

Meanwhile, major items of expenditures are: instruction, \$23.3 million; administration, \$1.1 mil-

lion; and operation (including such items as bus transportation) and maintenance (including custodial services and repairs to buildings), less than \$3 million.

Therefore, most of the county millage tax pays for the instructional programs, including much of the classroom teacher salaries. Incidentally, each mill tax produces more than \$2 million, in a budget where the largest item of expenditures is instruction. The average cost of educating each child in Palm Beach County is \$431.40 a year.

auxiliary by the Association of Florida Hospital Auxiliaries. She announced the State meeting of the AFHA will be held in the Fontainebleu Hotel at Miami Beach, Nov. 22-23. Those planning to attend are to make reservations through Mrs. Maxson.

Mrs. Oni Faye Ursry, ways and means chairman, reported four Auxiliary-sponsored vending machines for the automatic dispensing of hot coffee, cold drinks, can-

dy and the like have been placed in the hospital lobby. She said a portable cart, that can be wheeled from room to room with various items for sale desired by many patients, will be in operation in the near future.

Read at the meeting was a letter from the hospital board and J. C. Simonds thanking the Auxiliary for the drapes for the hospital windows and for its excellent hostess work during the recent highly successful open house at the hospital.

Hospital Administrator Simonds spoke briefly, telling of prepara-

tions being made for a children's ward at the hospital.

Members were instructed to be sure and wear their pink lady uniforms at the next meeting, Oct. 26, for the installation ceremony inducting officers for the 1965-66 year.

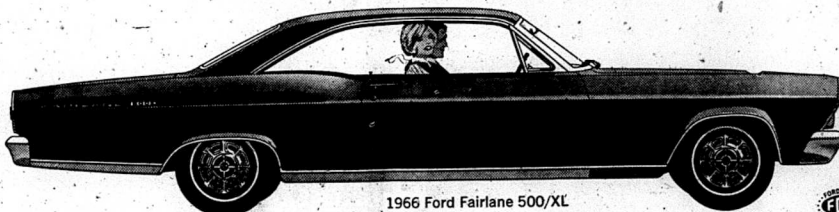

The meeting was opened with the group voicing the Auxiliary Prayer. Hot Coffee was served as refreshments.
